

PACEPACKER SERVICES

Automation with imagination....

BAGGING SYSTEMS

AFFORDABLE BAGGING SYSTEMS, FROM INDIVIDUAL
COMPONENTS TO TURNKEY SOLUTIONS.

PACEPACKER

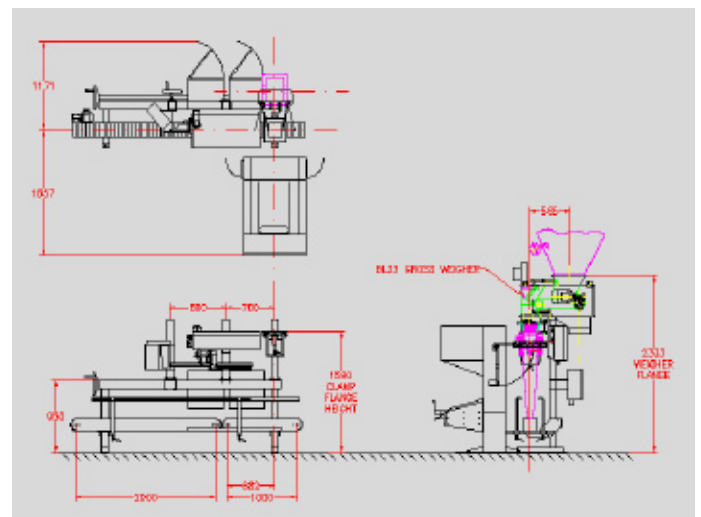

System Design

Pacepacker and now Pacepacker Services have a long tradition of working with customers to design and implement the ideal bagging and palletising solutions that meet today's stringent market requirements. You can be assured of a personal and friendly service where you will be able to speak to the designers directly about your specific needs, ensuring you get the right product first time.

We work with other leading manufacturers within the industry enabling us to offer you the best combination of equipment to suit your needs.

Specifications

After initial consultations Pacepacker Services will offer you a solution along with machinery, installation and delivery prices, planning in drawings and time frames for build and installation.
