

PAGEPACKER SERVICES

Automation with imagination....

CONVEYORS

FLAT TRACK, V TRACK, LIGHT DUTY BELT, HEAVY DUTY BELT
& ROLLER CONVEYORS FOR ALL APPLICATIONS.

PAGEPACKER

Operation

Pacepacker have a wide range of conveyors to suit most applications for transporting bags, boxes, products and pallets.

Conveyors are fitted with multi ply pvc or rubber belts, plastic or stainless steel slatted traces or steel construction rollers (both driven and gravity).

Options

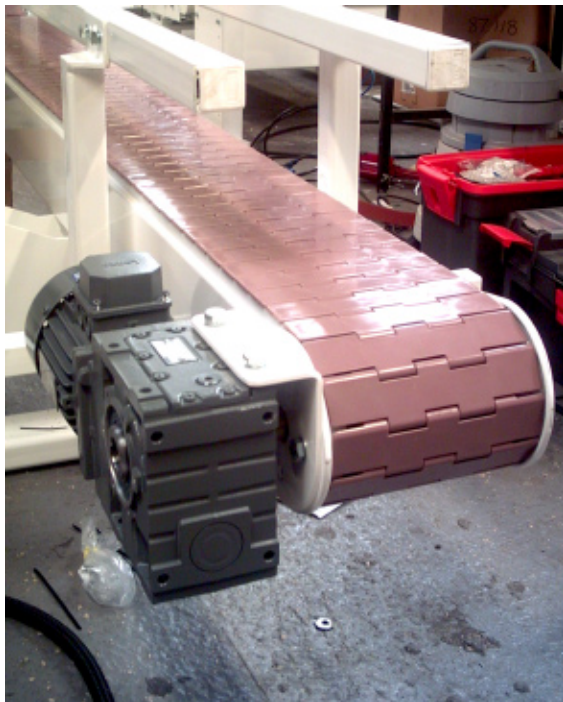

Height Adjustable Legs
Height Adjuster Frames For Easy Adjustment
Guide Boards Or Rails
Locking Castor Mobility Kit For Mobile Equipment

Speeds

As standard the range of conveyors have a moving surface speed of 10m per minute, although we can accomodate clients particular requirements. For precise adjustment and speed matching we can also supply conveyors with inverter controls.

Electrical Requirements

Standard: 415V, 50/60 Hertz 3 Phase, 1.2 Amp Supply. Alternatives can be accommodated.
